EDUCATION

York University

Master of Science, Computer Science

Toronto, CA

Sep 2025 – present

University of Toronto

Honours Bachelor of Science, Computer Science (Co-op) - Comprehensive Stream

Toronto, CA

Sep 2019 – Jun 2024

CERTIFICATION

AWS: [AWS Certified Machine Learning Engineer – Associate](#)

AWS: [AWS Certified Developer – Associate](#)

AWS: [AWS Certified Solutions Architect – Associate](#)

Oracle: [Oracle Cloud Infrastructure 2024 Generative AI Certified Professional](#)

PROFESSIONAL EXPERIENCE

Full Stack Engineer

Apr 2026 – Jun 2026

Big Bazaar

Ottawa, CA

- Designed and deployed a full-stack application using React on AWS Amplify, with Lambda handling backend logic and RDS databases, delivering a scalable cloud-native production environment.
- Led infrastructure migration from Vercel to AWS, configuring cloud services and CI/CD pipelines to improve deployment reliability and long-term scalability.
- Authored technical documentation and onboarding guides, enabling seamless knowledge transfer and reducing ramp-up time for incoming developers.

Teaching Assistant

Sep 2025 – Apr 2026

York University

Toronto, CA

- Delivered tutorials on Java and Spring Boot, guiding 25+ students through backend development concepts and hands-on implementation exercises.
- Mentored students individually through complex problem sets, strengthening their understanding of object-oriented design and framework-level architecture.
- Collaborated with the professor to align session content with course objectives, ensuring consistent and high-quality instruction delivery.

AI Developer

Jul 2024 – Nov 2024

Iter Innovandi

Toronto, CA

- Built a python-based text-to-speech pipeline integrating ElevenLabs AI voice models, improving audio quality and reducing manual processing overhead.
- Integrated ChatGPT for LLM processing and prompt orchestration, automating response workflows and reducing manual intervention.
- Partnered with cross-functional stakeholders to translate business requirements into scalable AI features, accelerating delivery timelines and ensuring alignment with product goals.

Configuration Management CMDB

Sep 2023 – Apr 2024

Softchoice

Toronto, CA

- Triaged and resolved ServiceNow IT service tickets across hardware, software, and access categories, maintaining SLA adherence and minimizing system downtime.
- Identified and corrected CMDB configuration inconsistencies, reducing downstream errors and improving data integrity across service workflows.
- Partnered with cross-functional teams to standardize ITIL-aligned processes, improving ticket resolution efficiency and reducing escalation rates.

Service Desk Analyst

Sep 2021 – Dec 2021

Ontario Shores Centre for Mental Health Sciences

Whitby, CA

- Automated user access workflows by scripting Active Directory configuration changes, reducing manual provisioning time and improving compliance accuracy.
- Diagnosed and resolved recurring software and system issues by analyzing ticket patterns, decreasing repeat incidents and improving overall system reliability.
- Built **Python** scripts to automate data extraction and reporting pipelines, enabling faster insight delivery for operational decision-making.
